For District Governors

Your Monthly Communication to Clubs

As district governor, you are required to communicate with all the club presidents and secretaries in your district at least once per month. This communication is important as it provides club leaders with news and reminders about the district and Rotary International. Find out more about its form and content in your District Governor's Manual. Thank you for forwarding your monthly letter to [your Club and District Support \(CDS\) team](#).

Are you looking for the Rotary President's monthly message? Visit the [Office of the President](#) on the Rotary website.
